

Ashim Banik

Looking for an Opportunity in field of Remote Sensing and GIS | Remote Sensing and GIS Specialist | Water Hydrology Specialist | DATA analysis | Image processing and interpretation | Cartographer | Research | Statistical Analysis | Trainer

SUMMARY

Remote Sensing and GIS Specialist with over **7 years of professional experience** in spatial analysis, image processing, hydrology applications, and field-based geospatial surveys. Proven expertise in delivering **industry-grade GIS solutions**, integrating satellite data with DGPS and drone surveys, and supporting decision-making for environmental, water resource, forestry, and planning projects. Adept at working in multidisciplinary teams and training professionals in GIS and remote sensing technologies.

PROFESSIONAL EXPERIENCE

Junior Research Fellow

(Remote Sensing and GIS)

(Wetland Research and Tanning Centre, Chilika Development Authority, Odisha State, India)

October 2020 to Present

Six years

- Conducted advanced GIS and remote sensing analysis for wetland, coastal, and hydrological studies.
- Integrated satellite data with **DGPS, bathymetric, and drone survey data** to enhance spatial accuracy.
- Developed thematic maps and analytical reports to support planning and environmental management.
- Collaborated with scientists, planners, and technical teams for project execution.

DGPS/ GIS Technician

(Remote Sensing and GIS)

(Conservator of Forests, Medininagar Working Plan, Medininagar circle, Palamo Forest Region, Jharkhand State, India).

November 2019 to June 2020

Eight Months

- Cadastral map Georeferenced, Forest Boundary survey through DGPS, Demarcation of Pillars and Forest Pillars Posting.
- Instrumentals and software knowledge on DGPS (Static and RTK).
- Application of various Remote Sensing and GIS Application to Monitoring in the Forest Area.
- All management/ working circle maps, stock map, Forest cover and Forest type maps, Forest for sampling for resource assessment, Details of wetlands in the forest areas along with maps using remote sensing technology, campa Plantation, Forest Fire Monitoring and Mapping.
- An indicative list of various layers in the Spatial Database in GIS Cell.

Selected Achievements

- Contributed to **20+ GIS and remote sensing project** supporting environmental monitoring, hydrology, forestry, and spatial planning initiatives.
- Analysed and managed **600+ GB of geospatial and satellite datasets**, supporting evidence-based decision-making.
- Conducted **DGPS (Static & RTK) and GPS surveys** across **1500+ km²**, ensuring **sub-meter positional accuracy**.
- Integrated **drone imagery, bathymetric measurements, and in-situ survey data** with GIS platforms, reducing validation effort by approximately **30%**.
- Produced **1200+ high-quality thematic maps and analytical outputs** for planners, researchers, and institutional stakeholders.
- Supported hydrology and water-resource assessments through GIS-based modelling, improving interpretation efficiency by **20–25%**.
- Contributed to capacity-building initiatives by training and mentoring **200+ students** and

Skill Highlights

- Project Management
- Strong decision maker
- Complex problem solver
- Creative design
- Innovative
- Service-Focused

Languages

- English
- Bengali
- Hindi
- Odisha

Hobbies

- Writing
- Gardening
- Playing
- Photography

Personal Exposure

- Father Name- L.T. Anil Chandra Banik
- Mother Name- Kalyani Banik
- Date Of Birth- 25th July 1988
- Caste-General (Ur)
- Religion-Hindu
- Sex- Male
- Material Status – Married

- Worked on the JICA-funded project in Cuttack for eight months, performed household-level surveys under Central Sanitation Programme, including data collection on toilet availability, waste management, water supply, and sanitation practices for GIS mapping and project assessment.
- Over 6+ years of experience attending Annual Bird, Dolphin, Flora, and Fauna Surveys in Chilika Lagoon, supporting biodiversity monitoring, migratory bird assessment, dolphin census participation, habitat observation, and ecological data collection for conservation and management activities.

Summary Infographic

Ashim Banik: Professional Portfolio & Geospatial Expertise

7+ Years Experience in Remote Sensing, GIS, and Hydrology | Specialized in Environmental Monitoring, Spatial Planning, and Advanced Analytics

Technical Toolkit

Advanced Geospatial Platforms

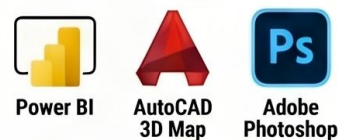

Expert proficiency across multiple platforms.

Programming & Automation

Utilizes coding for automation, analysis, and spatial database management.

Data Visualization & Design

Skilled in spatial dashboards, design, and professional map layouts.

Academic Foundation & Research

Dual Master's Degree

M.Sc. Remote Sensing and GIS
(First Class, 78%)

M.A. Geography
(First Class, 65.5%)

Peer-Reviewed Publication

Lead author, International Journal of Conservation Science, 2024.

Professional Impact & Achievements

1200+

High-Quality Thematic Maps

Produced professional analytical outputs for 20+ major projects for planners and researchers.

1500+ km²

Surveyed with Precision

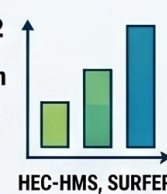

Conducted DGPS (Static & RTK) and GPS surveys ensuring high positional accuracy.

600+ GB

Geospatial Data Managed

Managed massive satellite and spatial datasets for evidence-based decision-making.

20–25%

Efficiency Gain in Modeling

Improved interpretation in hydrology and water-resource assessments.

200+

Professionals Mentored

Contributed to capacity building by training students and professionals.

Field Expertise & Surveying

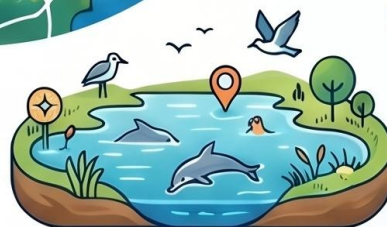

High-Accuracy Field Acquisition

Expertise in DGPS, Bathymetric surveys, and Current Meter surveys.

Aerial Intelligence

Certified Drone Pilot (NSQF Level-3)
Skilled in drone survey execution and image processing (Agisoft Metashape).

Environmental Monitoring (Chilika Lagoon)

6+ years experience in annual biodiversity surveys including dolphin census and migratory bird assessments.

Contact & Connectivity

Phone: +91 9681999958

Email: ashim2588@gmail.com

Location: Bhubaneswar, India

Digital Presence

LinkedIn ID: ashim-banik-595595210

ORCID ID: 0009-0004-7565-8859

Drone Pilot

M.Sc.

M.A.

Education

Drone Pilot (Junior) (NSQF) Level-3

Gu21000527-Govt industrial training institute, Cuttack, At/po-Madhu Patna, Cuttack, Odisha
(National trade certificate, directorate general of training, Ministry of Skill Development and Entrepreneurship, Government of India), July-2024

In Remote Sensing and GIS

Department of Remote Sensing and GIS,
North Orisha University, Odisha State.

2019 Passing, First Class with 78 Percentage.

In Geography

Department of Geography, University Kalyani, West Bengal State.
2011 Passing, First Class with 65.50 Percentage.

Core Competencies

- GIS & Spatial Analysis
- Remote Sensing & Image Interpretation
- Hydrology & Water Resource Mapping
- GIS Web & Spatial Data Management
- Cartography & Thematic Mapping
- Drone & DGPS Survey Integration
- Data Analysis & Visualization
- Training & Capacity Building

TECHNICAL SKILLS

Remote Sensing and GIS, Hydrology & Data Analysis

Geospatial & GIS Platforms

- ArcGIS and ArcGIS Pro
- QGIS
- Web GIS Applications
- ArcGIS Survey123
- ArcPy Automation

Remote Sensing & Image Processing

- Google Earth Engine (GEE)
- ERDAS Imagine
- ENVI
- Drone Image Processing (Agisoft Metashape)

Mapping & Design Tools

- AutoCAD 3D Map
- Cartographic Design & Thematic Mapping

Programming & Automation

- Python (ArcPy, Geospatial Automation)
- R & R Studio (Statistical & Spatial Analysis)
- SQL (Spatial Database Management)

Data Visualization & Business Intelligence

- Power BI (Dashboard & Spatial Data Visualization)
- Spatial Data Analysis & Reporting

GIS & Hydrology Software

- SURFER (Surface Modelling & Contour Mapping)
- HEC-HMS (Hydrological Modelling & Watershed Analysis)

Data Analysis & Statistical Tools

- SPSS (Statistical Analysis & Data Interpretation)
- Origin Pro (Scientific Data Analysis & Graphing)

Office & Documentation Tools

- MS Word (Technical Report Writing & Documentation)
- Microsoft Excel (Data Analysis, Pivot Tables, Charts)
- Microsoft PowerPoint (Technical Presentations & Project Reporting)

Design & Image Editing

- Adobe Photoshop (Map Layout Design & Image Editing)

Field Survey & Geospatial Data Acquisition Skills

- *GPS Surveying & Navigation*
- *DGPS Surveying (Static & RTK) for High-Accuracy Positioning*
- *Bathymetric Survey (Water Depth & Seafloor Mapping)*
- *Current Meter Survey (Hydrodynamic Flow Measurement)*
- *Drone Survey & Aerial Data Acquisition*
- *Hydrophone Survey (Underwater Acoustic Data Collection)*

Data Analysis & GIS Output Skills

- *Spatial Database Management (Design, Organization & Maintenance of Geospatial Data)*
- *Raster and Vector Data Analysis for Spatial Interpretation and Modelling*
- *Image Classification and Change Detection using Remote Sensing Techniques*
- *Hydrological Modelling for Watershed and Water Resource Assessment*
- *Cartographic Design for Thematic Maps and Professional GIS Reporting*

Publication

“Assessing urban heat island impact and identifying vulnerability zones through geospatial and geo-statistical techniques”, International journal of conservation science (DOI: 10.36868/IJCS.2024.03.26)

Additional Information

- *Strong analytical and problem-solving skills.*
- *Excellent coordination with multidisciplinary teams.*
- *Willing to work in field-intensive and project-based environments.*
- *Delivered freelance GIS and remote sensing projects across government, private, academic, and NGO sectors, managing end-to-end workflows from data acquisition to final cartographic and analytical outputs.*
- *Applied ArcGIS, QGIS, Google Earth Engine, ERDAS Imagine, and DGPS/drone data to produce accurate, decision-ready spatial analyses within defined timelines.*

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief.
